Tech Spot: Hyundai Pull Type Cover Assemblies

HYUNDAI CLUTCH KIT

HYK-6986 (pull type) (Alt No. 215-1211N) to suit:

Coupe SX 1.8L 8/96-on

Coupe FX, SFX 2.0L 8/96-on

Lantra, Elantra 1.8L 8/95-on

Lantra, Elantra 1.8L, 2.0L Sports Wagon 5/96-on

Tip:

When installing Hyundai Clutch Kit HYK-6986 **do not** attach the bearing to the cover assembly.

Reason:

It is a major operation to remove the bearing from the cover assembly once fitted. The gearbox will not re-assemble to the clutch system and motor if the bearing is pre-attached to the cover assembly.

For your convenience a tech note explaining the installation procedure is included in the clutch kit. A warning sticker is placed on the cover assembly as pictured below as a reminder. Remember to remove sticker before installing the cover assembly to the vehicle.
