Holden

Commodore VE, Colorado, Rodeo

3.6L V6

Clutch Kit including replacement Single Mass Flywheel Kit Number : GMK-7744SMF

When fitting a GMK-7744SMF EXEDY clutch kit, 2 spacers are supplied that are to be installed between the C.S.C .(Concentric Slave Cylinder) and transmission front face.

Suitable bolts are also included in the clutch kit.

These spacers are necessary to compensate for the variation in the cover assembly diaphragm finger height.

Spacer 1
